SHANTANU CHOUDHARY | *Frontend Developer (React) / Full Stack Developer*

shantanuchoudhary1103@gmail.com +91 93259 96803 Pune, Maharashtra linkedin.com/in/shantanuchoudhary1103

SUMMARY

Frontend Developer with 3.5 years of experience building and scaling React.js, Next.js and TypeScript applications used by 100K+ users. Led a development team on client projects, owning delivery from requirements to release. Strong in reusable component architecture, Redux Toolkit state management, real-time features with WebSockets and web performance optimization, with cross-platform experience in Flutter.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js (SSR), Redux Toolkit, React Hooks, Context API, Component Architecture, Performance Optimization, Responsive Design

UI Libraries: Tailwind CSS, Shadcn UI, Ant Design, Bootstrap, D3.js

APIs & Backend: REST APIs, WebSockets, Node.js, Razorpay, PostgreSQL, MySQL, Firebase

Cloud & Tools: AWS (S3, CloudFront, Cognito), Git, GitHub, GitLab, Vite, Webpack, Jira

Mobile & AI Tools: Flutter, GitHub Copilot, Claude

EDUCATION

Bachelor of Engineering (B.E.), Mechanical Engineering
KDK College of Engineering
2018 – 2022 | Nagpur, India
Score: 9.04

CERTIFICATIONS

- Full Stack Development Certification
- React.js Certification

WORK EXPERIENCE

Software Engineer, *Patheya Technology*
04/2025 – Present | Pune, Maharashtra

- Led the development team on client projects, owning client requirements and end-to-end delivery
- Architected and built multi-role, cross-platform apps with React.js, Flutter and Node.js for 100K+ users
- Reduced dashboard load time by 40% through lazy loading, memoization and code splitting
- Built a reusable component library with React Hooks, Ant Design and Tailwind CSS, reducing development time across teams
- Integrated Razorpay payments and OpenAI APIs for AI-generated personalised plans

Junior Full Stack Developer, *StoryYell*
05/2023 – 03/2025 | Nagpur, India

- Built responsive web apps with React.js, TypeScript, HTML5, CSS3 and Firebase for thousands of users
- Developed a reusable component library and integrated third-party APIs, reducing code duplication by ~40%
- Improved application performance and maintainability through code refactoring and lazy loading

PROJECTS

Moovv.fit – Physiotherapy & Mobility Recovery App
(Flutter, React.js, TypeScript, WebSockets)

- Built most of a cross-platform (Android, iOS, Web) physio app with OTP auth, AI exercise plans and tracking
- Delivered telehealth with slot booking, Agora video calls, real-time WebSocket chat and Razorpay subscriptions
- Shipped Play Store and App Store releases; fixed payment, chat, image caching and session persistence issues

Ignite LSF – Research Funding & Management Platform
(React.js, TypeScript, Redux Toolkit, Ant Design)

- Built a research grant and workflow management platform with role-based access control
- Centralized Redux Toolkit state, cutting redundant API calls by 25%, and optimized APIs for live dashboards

ARROW – Cash Flow Analytics Dashboard
(React.js, TypeScript, Redux Toolkit, D3.js)

- Built an interactive D3.js dashboard with bar, pie and trend charts for client payments and receivables
- Implemented category and date-based filtering, improving data drill-down speed by 50%
